Monument Society.

JAMES C. PICKETT, Entros and Publicana.

The Monument is intended to be a literary, agricultural, and mispelianeous paper. It will coutain selections of the literature of the day—the best that can be found in American and English publications; interesting scientificarticles, embracing smechanics; foreign and domestic news; a symposis of the proceedings of Congress, and every thing that such a journal might be espected to contain, with the exception of party politics, which will be at all times most rigorously exchained.

The Monument will be published for the express and the sole purpose of adding in the exception of the noble solumn now rising on the banks of the Posomac, in honor of the Father of this Country, and which every one who constructs the Issue of Washinstons would rejcic to the subscription are solved. After deducting out of the subscription are completed, after deducting out of the subscription of all who are willing to contribute to so patriotic an object, and one so entirely "automatic the proposed to be published, the remaining." our pose indicated. The sid therefore, our reserve, to the purpose indicated. The sid therefore, our reserve, to the formal proposed to be published. The sid therefore, of all who are willing to contribute to so patriotic an object, and one so entirely "attional, is carreedly requisted. By subscribing to the Monus." It will be doing something, at the same time, towards co. "pletting that majectic memorial of the Nation's graftude.

The found of Managers recommend fir, "lickett, former ity Tourth Auditor of the Treasury and Charge d'Affairs to Paru, who proposes to edit and publish the McJument Journal, as one well qualified to perform the duties of the subscribers. They assure their felloy elligens that this enterprise is not a speculation got up for individual amolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, than a vary moderate compensation for his services. Not o

and collars, and servetaries of all organized hadies thout the Union, are respectfully requested to estate in obtaining subscriptions, thus adding the great of our exertions.

It editors and publishers, on account of the object ich the Monument newspaper will be established, with it to succeed, it is hoped that they will contact the end of the succeed by publishing this prospectus.

Hone will be remitted, and all letters and moneys seed prepaid, to the general agent of the Monument. Hone Etisha Whittlessey, Washington.

Austin's Magic Freezer,

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented Beptember 19, 1848.

THE distinguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Gream during the progress of freezing becomes charged with atmospheric sir, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Gream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work befor, producing a better article, in every respect, than by any other mode.

5th. There is a considerable seving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Gream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I obserfully recommend it to the public."

H. F. JACKSON.

Eutaw House, Ballimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Gream Freezes of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as ragarda expedition and power, I consider It decidedly the Seet freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the fith? I commenced working it.

Baltimore, April 6, 1851."

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity, Electro-Dynamics; Astronomy, begun.

The College is provided with a Philosophical Apparatus that furnishes ample, mems of experimental Illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, parity in, this country and parity in London and Paris, in the purchase of new apparatus, adaptad to the present advanced state of the Physical Sciences.

ETAMIN 2TIONS.

At the close of Sach Study, ar Stan

At the close of each study, ar branch of study, the members of the class are carefully examined, and, at the clos of the year, in all the studies of the year, in the present of a Committee of the Trustees; and their attainment are communicated to the Board of Trustees.

The studies of this Course are arranged under the following departments, to wit:

1st. A MAYSURATIONAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriotiss, through all the bigher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

matics, ending in their application to Natural Philosophy, Astronomy, 4c.

2d. As Excuss Department—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Political Grammar, Story on the Constitution, Philosophy, Political Grammar, Story on the Constitution, Philosophy, Oral Philosophy, Natural Theology, Elements of Orticism, and Eridences of Christianity.

3d. A Mercanyms Department—In which will be imparted an acquaintance with all that is necessary to qualify youth for the immediate duties of the counting-house, including—

per centage; together with all such operations as are requisite for a thorough knowledge of the business of the counting-room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th AN Admictromate Departments—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th A Crym Excissus Department—In which are taught Arithmetic, (mental and written,) Geometry, Trigonometry, Surveying, with the use of instruments in the field, Practical Engineering, Architectures, Perspective, Dranghting, and Topography.

5th. A Tracum's Departments—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our common schools. Practical Lectures will also be given on School Teaching, both as a celence and as an art.

Pupils will not only thus receive the fullest instruction relative to the heat and most popular methods of exemplifying them, by hearing recitations in the lower departments of the Institution.

7th. A Departments of Mopuse Lampuage—In which

By a late re-organization of this department of Dela-ware College, the Board of Trinstees have taken measures to place it upon a new and improved foundation, and to nudow it with advantages possessed by faw similar insti-tutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate

supple reading matter, while a Leborstory, fully suppliwith apparatus and tests, contains all that is necessary for 
practical instruction in Chemical Manipulation.

The school year commensed on the third Second(Manday) of the Night month, (September, and is dividinto four quarters of elevan weeks such, leaving a vacatiof two months, from about the middle of the Sevenmonth (July).

VALUABLE LAW BOOKS.

We invite the ettention of the Profession, and oth desiring Law Books, to our very extensive sto which, we believe contains the best assortment of American Publications in the United States. Particular at tion given to furnishing or completing Libraries for Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

88 Folumes, with a complete Index to the first 47 Folumes.

88 Shee volume 30 of this series, The English Common Law Reports have been reprinted in full. With volume 44, we commenced hinding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 48 vols., 43 50 per vol.

Bor the succeeding. 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared with the rates of some of the principal American Reports of evan interior merit, resommends tham particularly to the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. General Survivoor and George W. Biddle Regres. I vol. 8vo. - 28 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, Sc., 2c., sufficient, probably, for the Elucidiation and Prosecution or Defenice of any case that can arise it our Courts of law; and being thus made sasily and it stantity scoasible, these Reports will be found so comprhensive, convenient, and cheep, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessin the Reports; and of great convenience to those havin access to, but not owning the Series.

Access to, but not owning the series.

New English Exchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. Char Hars and H. B. Wallace, Eegre, at \$2.50 per vol., bound.

Inciming McClelland and Younge, Younge and Jervis, Crompton and Messon, Crompton, Messon and Jervis, Crompton and Messon, Crompton, Messon and Boscoe, Messon and Younge and Collyer—in Equity.

Messon and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

\*\*The We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

Cassiness, January 25, 1845.

Messors, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the

sincerity say, that I entertain a very high comments sincerity say, that I entertain a very high comments are not excelled by any cotemporaneous Reports, in learning ability, for general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deep of more importance or value for a Professional Library.

JOSEPH STORY.

Camazines, January 25, 1845. otter of the 24th has been receive Gentlemen: Your letter of the 24th has been received, in which you ask my opinions to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawren, and as to the expediency of reprinting them in this country. Of the high value of these Reports both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for this let afficee or twenty years, both at Equity and in Common Law, being smittled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

Tain, gentlemen, very respectfully yours, almon Green. T. & J. W. Johnson.

Law Library.

Print's Series—Perty Volumes.

Twelve Dollars a year, bounds—Ten Dollars in Numbers—The chespest Law Periodical in the United States.

It is our determination to make the Law Labrary the chespest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to restite the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Niel Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputsition which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been procented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character. Pourth Series Porty Volumes.

Leading Cases in Law and Equity.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, 1 vol.

8vo. \$4 b0; with copious and elaborate American Notes,

For conveying Passengers to and from Great Britain and Ireland, and remitting money to all parts of England, Ireland, Scolland, and Wales.

W. A. J. T. TAPSOUTT & O., 85 South street, New York, W. TAPSOUTT & O., 85 South street, New York, W. TAPSOUTT & O., 85 George's Buildings, Regent's Road, Liverpool.

In announcing the completion of their arrangements for the present season of emigration, the subscribers beg to assure their triends and public that every effort will be made by them to ensure a continuation of the patronage hitherto so liberally bestowed upon their House; and would earnestly impress on the minds of those wishing to send for their triends in the Old Country, that Mr. William Tapscott will personally superintend the departure of all persons from Liverpool, whose passage may be engiged at their office in New York, or by any of their Agents throughout the United States and Canada. This, they feel assured, is a sufficient guaranty for promptness, and a Yndl sceurity that passengers will be quickly and carefully dispatched. The subscribers are agents for the New Line of Liverpool Packets, viz. "Queen of the West," Capt. P. Woodhouse; "Sheridan," Captain G. B. Cormbin, "Constitution, "Captain John Britton; "Garrick," Captain Bursley; "Roscinds," Captain Ediredge; "Haverpool," Captain J. Eldredge; "Siddons," "Anerican," (new.) "Niagara," "Attantic," Cormelis," "Adriondeck," "As merican, "In the Siddons, "Sens," "American, "In the Siddons, "Sens," "American

hy the most experienced men, in the different trades, arbited up strictly with an eye to the comfort of passenger of every grade, and will sail punctually on their states cays.

W. & J. T. Tapscott & Co. can confidently assert that they now possess facilities for carrying on the Emigration bundings between the Old and new World, superior to any their establishment in the country, and through their manufactures of the Co., of Liverpool, their numerous customers may rest assured that the greatest punctuality will be noticed and perfect satisfaction given in every branch of their business.

Emittances to England, Ireland, Scotland, and Wales. The subscribers supply Drafts for any amount from £1 alpwards, drawn direct and payable at the National Bank of England, Bank of Scotland and Branches, Mesers James Butt, Sons & Co., Liverpool; National Provincial Bank of England, Bank of Scotland and Branches Mesers James Butt, Sons & Co., London. All of which are paid on demand, without discount or any other charge.

Persons residing in the country and wishing to send money to their friends, may insure its being sent satisfactorily, on their remitting to the subscribers the amount they wish sent, with the name and address of the person for whom it is intended; a draft for the amount will then be forwarded, per first saffing Packet or Steamer, and a receipt for the same returned by Mail.

Persons having money in the Old Country which they wish to receive, without the expense of going for it, may get it safely transmitted by its being deposited with Wm. Tapscott & Co., Liverpool, and an order from them for the amount will meet promt payment here.

To emidants for any house in the trade, they are canabled to offer them any mode of conveyance, whether railroad, canal, or steamboat, and that at prices as low was are usually paid for the worst possible conveyance, and with a certainty of their not being subjected to any delay or imposition on the route.

Every information given on application either personally, or by letter addre

NOTICE.

BALTIMORE AND WASHINGTON RAILROAD.

N and after WEDNESDAY next, 9th instant, the station on Peunsylvania avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passenger trains will leave the latter, commencing at 6 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

1st. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless compiled with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The hours for receiption and delivery of merchandise are from 8 a. m. till 4 p. m.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconvenience.

FURNISHING MAIL LOCKS AND REYS.

POST OFFICE DEPARTMENT, 
March. 14, 1861.

I T being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July usxt. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being nishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an addi-tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

written notice to that effect, not more than nine nor lease than six months before the termination of the first term of four years.

With a view of procuring the best look at the lowest price, no kind of look is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the maliscraice should possess the following qualities, viz; durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and on thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contractomy be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department. The kind of lock adopted must be patented, and the patented will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fallif latifiedly the terms and conditions of his contract, the Postmaster General shall have the right to contract general may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right to contracting with different troliviousle for such different kinds of locks as he may select, an

HUNT'S MERCHANTS MAGAZINE
AND COMMERCEAL REVIEW.
Electrical July, 1638,

BY PRESEAS HUNT, EDITOR AND PROPRIETOR.
THE Number for December, 1850, completed the twenty third semi-ammal volume. The work has been callarged since its commencement in July, 1838, and each volume now contains more than seven hundred large octave pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many comments.

volume now contains more than seven hundred large octave pages. A few complete says of the Hagazine may be obtained at the publisher's office, 142 Fulton, street, New York, neatly and substantially bound, for two dollars and a haif per volume.

The following are a few of the many commendancey letters received by the cellior of the Merchants' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Assnance, 20th July, 1849.

Dear Sir: I wish to express to you the gradification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait to the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and ammenment, we are naturally desirous to present all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their own them were the contributed to our information, on the property of your rainable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges in good order, a large amount of valuable statisfical and other information, highly useful not only to the merchant, but to the states man, to the outlivator of the earth, to the manufacturer, to the mariner, in short, to all classes or the business and reading community.

Extract of a letter from Hon. Millard Fullmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hieffation in anying that I hink it one of the most valuable structure. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have found it in reality to be a magazine, and that well replenished, of all the useful meter which the internants' magazine in the built for many years of carefully consulting it.

SPRING IMPORTATION.

N. B. Will receive the newest style of Dress Goods by every steamer. A large assortment of Trimming Goods slways on hand.

ELASTIC\* UNIVERSAL TOUCH.

ELASTIC\* UNIVERSAL TOUCH.

WISE & BROTHER, Manufacturers of Bondoir, Grand, and Synare Pyanas, request those who would be assured of a first class Piano, one that Index can perform on with the greatest possible advantage—one that the touch can be instantly adjusted to the exact strength of the furers and movement of music, one that will stand in concert tune, one that the tone will not become shrill and rating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an age—to give them a call. The ancient standing of the Baltimere factory, and liberal patronsge of citizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Bondoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

\*\*No. 31 Hanover street, Baltimore.\*\*

\*\*Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefore.

COLD SPRING WATER CURE THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about irree miles from the city of Buffalo, in a rural spot, and o accessible from all points as to be reached without in-

three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of ounibuses runs from the steamboat landings in Buffalo to the springe every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Mesers. Hodgee & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a giance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extender forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and conseless enterprise.

The water, taken immediately from the celebrated (Cold. Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently streeted at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently espacious to accommodate sevenity-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of 8. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Mi. Mary M. Taylor, a lady of high medical attainments, who has attended two courses of hectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel. MEDICAL DEPARTMENT.

any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gendensa eminantly qualified for that position; and anwearied pains will be taken to have every thing appertaining
to the establishment arranged on a plan, and conducted
in a way, to ensure the comfort, and promote the health
and happiness of all who may wish to avail themselves of
its benefits. Baths of all descriptions, adapted to the cure
of the various forms of disease, and constructed on a scale
not inferior to those of any other establishment in this
sountry.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intelerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and currative agent, is a practical substitution of a simple and remarkably efficiences mode of curring the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the carly discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of similar character, and will be found equal to the best, as regards the order, convenience, and designableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS.

For board, medical advice, attendance and nursing, &c., from 27 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two lines sheets, two cotton comforters, one woolles blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davis, M. D., 239 Main street, Buffalo, N. V.

2. M. 2. G. W. Davis & Ce., Buffale,
